

# NAMIBIA

## SYMPHONY OF WILDERNESS

During their 4000 km drive through the vast land and the scenic flight over the desert, Annemarie Koelliker and her husband Roberto Saibene enjoyed breathtaking views of a wide variety of landscapes. The Etosha National Park with its interesting wildlife, the red dunes of Sossus Vlei in the Namib Desert and the surreal atmosphere in the Quiver Tree Forest are some of the highlights of this trip.

The multivision show offers a spectacular impression of the various beauties of this country. The accompanying music and comments underline the pictures.

*Data of the show:*

- *Multivision Show in two parts*
